

INDIGO SELECTION - EL RISCO BLANCO

Aragón

APPELLATION: Calatayud

BLEND: Macabeo

VINEYARD: _____

The region of Calatayud lies 250km northeast of Madrid. Grapes for this wine come from the slopes of Sierra de la Virgen in the Ribota valley with an altitude of 600 – 800m above sea level. The climate is warm and dry with a large diurnal temperature range. Soils are free draining clay limestone, and rainfall is low at under 500mm per year.

VITICULTURE: _____

Viticulture is sustainable.

WINEMAKING: _____

Grapes are handpicked. Fermentation occurs predominately in stainless steel tanks, with a small proportion also fermented in concrete. The wine is unfinned with just a light filtration.

WEBSITE: n/a

This wine is suitable for vegans and vegetarians.

TASTING NOTES:

Crisp and refreshing, it's packed full of unctuous white peach and grapefruit peel with a subtle herbal finish.
